RACE CONTROL CENTER

INSTRUCTIONS OF USAGE AND MOUNTING OF GPS SAFETY AND TRACKING EQUIPMENT

1. Driver/ crew/ team are personally responsible for mounting safety and tracking equipment. **Same device must be used during reconnaissance and race.** During reconnaissance **device must be in a visible place**, so Marshals or other Officials could identify it.
2. The device must be mounted and the sticker must be stuck into the race car **before start of the rally.**
3. Officials, appointed by the Organizer, **will inspect** if the equipment is fitted correctly and the informational sticker, containing contact phone number of the race control center, is placed in its **place in the special area, marked in the Rally documents.**
4. Driver/crew/team, which have fitted the equipment incorrectly, **must fit it correctly before start of the rally.**
5. The Organizer will apply deposit payment (200€), which is returned if the device is **returned** working and in good condition **until deadline**, indicated in the Supplementary regulations
6. If the crew stops in the special stage, “SOS” or “OK” button **must be pressed within 30 seconds.** Crew, which has stopped in the special stage, must inform race control center about reasons of stopping, **contacting by the telephone number, written on the informational sticker.**
7. For the **infringement** of usage of “SOS” and “OK” signals, the crew **can be fined** according to national auto sport federation rules.
